Calf vein anatomy and flow: implications for colour doppler imaging	84
Colour flow imaging of calf vein thrombosis	198

CENTRAL NERVOUS SYSTEM (INCLUDING SKULL AND SPINE)

The natural history of sciatica: a prospective radiological study	7
Paraganglioma of the cauda equina	139
The foramen lacerum – a route of access to the cranial cavity for malignant tumours below the skull base	179
MRI in diabetes insipidus due to metastatic breast carcinoma	184
Non-invasive assessment of the Circle of Willis using transcranial pulsed Doppler ultrasound with angiographic correlation	193
The vanishing ring sign – an unusual CT manifestation of multiple sclerosis	213
Imaging of orbitofrontal cholesterol granuloma	237
Chronic spinal cord compression from extramedullary haematopoiesis in thalassaemia – MRI findings	281
Selective occipital lobe hydrocephalus and agenesis of the left lobe of the liver in congenital myotonic dystrophy	284
Diagnosis of metastatic leptomeningeal melanoma by contrast enhanced MRI	290
Prevertebral swelling in cervical spine injury: identification of ligament injury with magnetic resonance imaging	318

DIGESTIVE TRACT AND ABDOMEN

The sonographic appearances of small bowel tumours	30
Mesenteric lipoblastoma	57
Gastric sarcoidosis – detection by ultrasound	59
Tuberculous colitis mimicking Crohn's disease	131
Volvulus of a mesenteric cyst – an unusual complication diagnosed by CT	211
The acute contrast enema in suspected large bowel obstruction: value and technique	273
Small bowel volvulus presenting during pregnancy	286
CT diagnosis of nonobstructive left paraduodenal hernia	288
Computed tomography in blunt abdominal trauma: an analysis of clinical management and radiological findings	304
Ischaemic colitis: clinical, radiological and pathological correlation in three cases	337
Dose reduction of hyoscine-*N*-butylbromide for double-contrast barium meal examinations – a prospective randomized study	340
Pneumatosis intestinalis occurring in association with cryptosporidiosis and HIV infection	410

EAR, NOSE, THROAT, MOUTH AND EYES

MRI of cartilaginous tumours of the larynx	23
Computed tomography and ultrasonography in submandibular tumours	114
The lateral neck radiograph in suspected impacted fish bones – does it have a role?	121
Calcification of genioglossus: a painful radiographic finding	137
The imaging characteristics of naso-sinus chondrosarcoma	189
Tongue cancer treated with irradiation: assessment with MR imaging	243

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

The refereeing procedures for papers submitted to *Clinical Radiology*	1
Fetal medicine and ultrasonography: a genetic perspective	4
